

# CD DUPLICATION SYSTEMS

*CD Dupe-It systems are the lowest cost professional CD duplicators available!*

*Instantly duplicate CD-ROM disks for software or audio distribution. Make spare backup copies of your valuable software. Produce disks quickly and economically. No CD design or multimedia production experience is required.*

*Dupe-It copiers automatically decode and copy virtually any CD format, including CD-ROM, audio, CD-DA, CD-XA, Mac HFS, Mixed Mode and ISO 9660. Just insert your original disk and press "copy". The fast on-board multimedia processor decodes the CD format and copies it to the internal A/V hard drive. Insert blank disks and make as many exact copies as you like. You'll easily and quickly produce identical bit-for-bit duplicates.*

*The systems are totally self contained — absolutely no connection to a PC or Mac is required to copy disks. Just turn it on and start copying. With the included design software, Dupe-It also works overtime as your custom CD design system. Just attach a SCSI cable to your PC or Mac and you're ready to master your own custom CD-ROMs and audio CDs.*

## ADVANCED FEATURES:

- Dual drive units give you 8X write performance for high volume duplication.
- All duplicators include an internal A/V hard drive to store bit-by-bit copies and master images.
- Duplicate any CD, including audio, data, and CD-ROM.
- All units are completely stand-alone. No computer is needed.
- CD design software and SCSI port link to any PC or Mac.
- Simple one button operation makes copying easy.

Copyright laws must be observed. This product is designed for backup and in-house duplication purposes only.
